ABOUT THE COMPANY

IC Solution (ICS) is a digital service provider that aims to provide software, designing and marketing solutions to individuals and businesses. At ICS, we believe that service and quality is the key to success

We provide all kinds of technological and designing solutions from Billing Software to Web Designs or any custom demand that you may have. Experience the service like none other!

Some of our services include:

Development - We develop responsive, functional and super-fast websites.
We keep User Experience in mind while creating websites. A website should load quickly and should be accessible even on a small view-port and slow internet connection.

Mobile Application - We offer a wide range of professional Android, iOS & Hybrid app development services for our global clients, from a start up to a large enterprise.

Design - We offer professional Graphic design, Brochure design & Logo design. We are experts in crafting visual content to convey the right message to the customers.

Consultancy - We are here to provide you with expert advice on your design and development requirement.

Videos - We create a polished professional video that impresses your audience.

OVERVIEW OF THE PROJECT

Project Name: Tribute to doctors

Team Members: UMA.V(1TJ18CS105)

NOOR FATHIMA(1TJ18CS068)

This project is based on Web Development And its Applications. The main objective of this project is to learn the implementation of HTML, CSS and JavaScript. The basic webpage of this project is created using HTML and styling of the webpage is done using CSS. It provides a platform to the viewers who want to get a brief about the doctors who lost their lives to COVID-19. The users can learn more about the doctors and the awards dedicated to them by clicking on the dossiers and awards section. They can contact us by going to contact us section that consists of a form, the users can fill this up for further queries. It consists of a simple and user friendly interface helping the users to use it efficiently.

ABOUT THE PROJECT

This project is a tribute to the doctors , who have lost their lives while serving the covid patients. It gives a brief about the covid warriors and provides the “live-stats of number of people who are succumbed to this deadly virus.it allows the viewers to send their queries and contact us for any further information. We would be taking this concept much further by building a system for it, with a community that would work for the betterment of the project.

TOOLS USED

Software Requirements

- Visual Studio Code 2019.
- Google Chrome or Microsoft Edge of latest version.
- Front End: HTML, CSS, JS (optional)
- Linux 7.1 or Windows XP/7/8/10 OS or Mac OS

Hardware Requirements

- Pentium 200-MHz computer with a minimum of 64 MB of RAM (128 MB of RAM recommended).
- Monitor with a refresh rate of at least 40Hz for a smooth GUI experience (optional).

IMPLEMENTATION

Source Code (main):

.HTML

```
html {
    background: url(BGI.jpg) no-repeat center center fixed;
 -webkit-background-size: cover;
-moz-background-size: cover;
 -o-background-size: cover;
  background-size: cover;
}
body{
        margin: 0;
}

.card-horizontal {
                display: flex;
             flex: 9 9 auto;
             padding: 20px;
 }
  .card{
        background-color: rgba(85, 39, 8, 0.00);
           margin: 40px;
         }
.card-title{
             font-size: 50px;
             padding-left: 20px;
             color: rgb(114, 9, 100);
       }
        .card-text{
        font-size: 22px;
         padding: 20px;
        font-family: Cambria, Cochin, Georgia, Times, 'Times New Roman', serif;
    color: rgb(49, 19, 2);
```

```
    }

.card:hover {
        box-shadow: 0 50px 50px 0 rgba(0, 0, 0, 0.00);
    background-color: rgba(44, 114, 4, 0.00);
     }

A TRIBUTE TO FRONTLINE CORONA WARRIORS.

<p>The 2019-2020 coronavirus pandemic is
upending life on a global level as we know it. The highly
infectious coronavirus disease 2019 (COVID-19) is caused by
severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2).
It was first seen in Wuhan, Hubei, China where its outbreak was
first identified in December 2019. After almost 3 months,
on March 11, 2020, the World Health Organization recognized
it as a pandemic considering its significant ongoing spread
in multiple countries across the world.

severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2).
It was first seen in Wuhan, Hubei, China where its outbreak was
first identified in December 2019. After almost 3 months,
on March 11, 2020, the World Health Organization recognized
it as a pandemic considering its significant ongoing spread
in multiple countries across the world.

<p>
Needless to say, doctors, nurses and people working in
health-care sectors are particularly vulnerable to the
highly infectious disease. In response to the global
pandemic, the under-resourced doctors are facing
unprecedented challenges. The list of the sleep-deprived
heroes includes doctors, nurses, medical cleaners,
pathologists, paramedics, ambulance drivers, and
health-care administrators. In the fight against
coronavirus, the brave medical army stands strong
with thermometers, stethoscopes, and ventilators as
their weapons. Not to forget, medical researchers are
working day in and night out against all odds, hoping to
find the antidote to the disease.

<p>
Every day, the selfless warriors are giving it their all
in health-care settings while cutting themselves off
from their families and loved ones. The sacrifice that
they are making for the safety and welfare of humanity
is priceless and deserves lifelong gratitude on our end.
Most importantly, we must reassess the value health-care
workers hold in our lives and the kind of treatment
they get from us. Moreover,
the world needs to work towards advancement in medical
research and technology.

A TRIBUTE TO FRONTLINE CORONA WARRIORS.
The 2019-2020 coronavirus pandemic is upending life on a global level as we know it. The highly infectious coronavirus disease 2019 (COVID-19) is caused by severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2). It was first seen in Wuhan, Hubei, China where its outbreak was first identified in December 2019. After almost 3 months, on March 11, 2020, the World Health Organization recognized it as a pandemic considering its significant ongoing spread in multiple countries across the world.
Needless to say, doctors, nurses and people working in health-care sectors are particularly vulnerable to the highly infectious disease. In response to the global pandemic, the under-resourced doctors are facing unprecedented challenges. The list of the sleep-deprived heroes includes doctors, nurses, medical cleaners, pathologists, paramedics, ambulance drivers, and health-care administrators. In the fight against coronavirus, the brave medical army stands strong with thermometers, stethoscopes, and ventilators as their weapons. Not to forget, medical researchers are working day in and night out against all odds, hoping to find the antidote to the disease.
Every day, the selfless warriors are giving it their all in health-care settings while cutting themselves off from their families and loved ones. The sacrifice that they are making for the safety and welfare of humanity is priceless and deserves lifelong gratitude on our end. Most importantly, we must reassess the value health-care workers hold in our lives and the kind of treatment they get from us. Moreover, the world needs to work towards advancement in medical
